

Vladislav Galdyshko

FULL STACK DEVELOPER

Full stack developer is ready to invest time and effort to develop the necessary skills. Who knows how to work in a team and complete tasks from start to finish. I have a stack of HTML, CSS, JS, React, Next, Node technologies, as well as scrum and agile methodologies. I am looking for a position in a company that makes users' lives more comfortable.

PROJECT EXPERIENCE

"SoYummy" - ReactJS | [Code](#)(GitHub)

Technologies: HTML5, CSS3, JavaScript, React, Redux-Toolkit, Node.js, Express, MongoDB, Webpack.

Our "SoYummy" app is a convenient tool for all cooking enthusiasts that allows you to replace traditional recipe books. You will be able to create your own recipes, add new dishes to your collection, and choose from a large list of available recipes. You will also be able to save your favorite recipes in a separate list for quick access in the future.

"My Portfolio" - JavaScript | [Code](#)(GitHub)

Technologies: HTML/CSS/SASS/BEM/Responsive layout Parcel/JavaScript/REST API

For realizing my personal Web-Site I used HTML/CSS/SASS/BEM/ Responsive layout Parcel/JavaScript/REST API

There are all my projects in section "Portfolio".

"BeautyBlossom" - ReactJS | [Code](#)(GitHub)

Technologies: React, Node.js, Redux Toolkit, Styled Components, MUI, Axios, Formik, connectionsAPI

"Beauty Blossom" is an online store with a large selection of cosmetics, household and health products. This project was carried out by our team of two developers, I was a full stack developer. My work was the creation of the back end with all the functionality of the online store, and the front end was the creation of the admin panel and integration with other companies

"FilMOTEKA" - JavaScript | [Code](#)(GitHub)

Technologies: HTML5, SCSS, JavaScript, Parcel, Node.js, Firebase, Rest API

"FilMOTEKA" provides a convenient way to explore new movies, learn about their ratings, and watch trailers to get more detailed information before choosing a film to watch.
